

The list of the sites introducing the renewable energy

Area/Country	Company	Outline
Europe		<p>Sharp subsidiaries in Europe have begun to use renewable energy. Some companies are operating on power supplied by 100% renewable energy sources.</p> <p>Sharp Manufacturing France(France) Sharp Electronics Germany/Austria (Austria) Sharp Electronics Germany/Austria (Germany) Sharp Electronics Benelux B.V. (Belgium) Sharp Electronics Nordic AB(Sweden)</p>
America		<p>In 2008, Sharp US sites are striving for carbon neutrality on their energy use. 85% of the site's electricity is supplied by renewable energy sources. To offset the remaining 15% that comes from a carbon-based source, they are purchasing "Green Tags".*</p> <p>*"Green Tags" are certified by Green-e® Climate, a national organization. http://www.green-e.org/</p> <div style="text-align: right;">   </div> <p>Sharp Microelectronics of the Americas(USA) Sharp Laboratories of the Americas(USA)</p>
